

360° FREELY ROTATABLE FITTING

ROTATABLE HOSE FITTING

The 360° Freely Rotatable Fitting is designed to improve hose flexibility and manoeuvrability during washdown operations. Its rotating design allows freer hose movement while helping maintain optimal hose positioning throughout use.

KEY FEATURES & BENEFITS

- Economy - no more premature wear and tear on the supply hose
- Ease of use - Reduce efforts due to hose rigidity and make it easier to wash in hard-to-reach places.
- Comfort - No need to roll up the hose, which is now ideally positioned.
- Longevity - Mechanical components in stainless steel and body in aluminium for food applications.

TECHNICAL DETAILS

Clearance	11 mm
Weight	123 g
Maximum Temperature	90°C
Maximum Pressure	40 bar
Male Connection	BSP ½"
Female Connection	BSP ½"
Dimensions	(A) Ø29.5 mm / (B) 82 mm

Product

360° Freely Rotatable Fitting

Code

8720
