

TELESCOPIC LANCE

ADJUSTABLE CLEANING LANCE

A lightweight, adjustable telescopic lance designed to help operators safely clean difficult-to-reach areas. Available in multiple length options, it enables cleaning at heights of up to 7.3 m (24 ft) without the need for a ladder.

KEY FEATURES & BENEFITS

- Fibreglass and aluminium construction for reduced operator fatigue
- Lever-lock mechanism allows quick length adjustment
- Three-stage design provides extended reach flexibility
- Suitable for use with both hot and cold water
- Available in multiple length configurations to suit different applications

TECHNICAL DETAILS

Maximum Flow Rate	30 L/min
Maximum Temperature	90°C
Maximum Pressure	275 bar
