

20 HOT WATER STEAM HOSE

Designed for low-pressure hot water applications and intermittent steam sterilisation, the Foodclean® 20 HWS Hose is suitable for washdown operations and food product delivery.

Featuring an FDA-approved food-safe inner liner and a non-marking cover, it is ideal for hygiene-critical food production environments where cleanliness, safety and durability are essential.

FDA  (CFR 21 177.2600)

Product

Blue

1/2" Foodclean HWS Hose	0510
3/4" Foodclean HWS Hose	0511

KEY FEATURES & BENEFITS

- FDA-approved food-safe construction
- Suitable for intermittent steam sterilisation up to 164°C
- Lightweight and flexible for easier handling
- Available in 1/2" and 3/4" bore sizes
- Smooth abrasion and weather-resistant cover

TECHNICAL DETAILS

Water Pressure Rating	20 bar up to 90°C
Water Temperature Rating	-20°C to +90°C
Steam Pressure Rating	6 bar up to 164°C
Steam Usage	Maximum 30 minutes, cleaning purposes only, open end only
Weight (1/2")	0.43 kg/m
Weight (3/4")	0.70 kg/m
Minimum Bend Radius (1/2")	95 mm
Minimum Bend Radius (3/4")	150 mm
FDA Compliance	CFR 21 177.2600
Additional Compliance	M.D. 21/3/73
Tube Construction	NBR rubber, clear colour, mirror-like finish
Cover Construction	NBR rubber, blue, smooth abrasion and water-resistant finish
