

BLUE RANGE HIGH PRESSURE GUN

0125 | 0126 | 0127 | 0128

KEY FEATURES & BENEFITS

- Ergonomic trigger design helps reduce the risk of repetitive strain injuries
- Lightweight construction improves operator comfort during prolonged use
- Suitable for high-temperature cleaning applications up to 150°C
- Trigger lock allows the gun to be secured in the closed position
- Available with optional quick coupling for fast connection and disconnection

The Blue Range High Pressure Gun is a lightweight trigger gun designed for high-pressure cleaning applications. Suitable for use with hot water systems, it delivers reliable performance in demanding environments and is available in standard and stainless steel versions, with or without a quick coupling.
