

FLOOR CLEANING TOOL

0224 & 0242

KEY FEATURES & BENEFITS

- Offers a quicker clean with less operator strain, as the hood can be pushed along the floor on the wheels.
- Cleans the floor via four wide angle jets, situated on a spraybar under the hood.
- Connects directly to most standards wash guns or valves.
- A low pressure nozzle is included for chemical application.

The simple & effective floor cleaning tool eliminates upward spray when cleaning your floors, therefore reducing the spread of harmful bacteria.

The lance is supplied ready to connect to standard wash guns or valves
