

GARRISON HIGH PRESSURE WASHDOWN HOSE

Designed specifically for food factory washdown systems, the Garrison High Pressure Hose features a durable outer cover that resists chemicals, animal fats and abrasion, helping to prevent peeling and extend service life.

Galvanised steel braiding provides excellent corrosion resistance, making the hose a reliable solution for demanding hygiene environments.

KEY FEATURES & BENEFITS

- Greatly outlasts conventional hoses
- Lightweight and flexible for improved handling
- Reduces hose replacement frequency and downtime
- Available in three colours to support colour-coding systems
- Built for demanding food production environments

TECHNICAL DETAILS

Pressure Rating	310 bar (4:1 safety factor)
Temperature Rating	-29°C to +121°C
Internal Hose Diameter	9.5 mm (3/8")
External Hose Diameter	18.0 mm
Minimum Bend Radius	90 mm
Weight	0.42 kg/m

Product	Blue	Red	Yellow
10m Garrison HP 3/8 Hose	0391	0856	0495
15m Garrison HP 3/8 Hose	0392	0857	0496
20m Garrison HP 3/8 Hose	0393	0858	0497
