

NITA HOSE TRACK

STAINLESS STEEL TRACK SYSTEM

Product	Code
6m U Rail Stainless Steel	8080
U Rail Connector	8081
Ceiling Support Bracket	8082
Hose Trolley	8083
Hose End Clamp	8084
Bumper	8085
Curved U Rail	8086

KEY FEATURES & BENEFITS

- Prevents hoses from contacting the floor, reducing the risk of cross-contamination
- Improves operational efficiency by providing instant hose accessibility
- Helps extend hose and spray gun service life
- Eliminates trip hazards for a safer working environment
- Reduces manual handling and the risk of back injuries
- Compatible with all 3/8" and 3/4" hose types
- Heavy-duty stainless steel construction for long-term durability
- Available in custom lengths and curved sections to suit site-specific applications

The NITA Stainless Steel Hose Track System provides complete hose coverage along production lines, keeping hoses safely suspended above the floor to improve hygiene and workplace safety. Available in straight or curved sections and manufactured to suit site-specific requirements, the system provides a flexible hose management solution for food processing environments.
