

NITA HOSE REEL TROLLEY

SMALL 1/2" HOSE REEL TROLLEY

nita

KEY FEATURES & BENEFITS

- Stainless steel construction for durability and long service life
- Helps reduce back injuries associated with manual hose handling
- Cleanable internal design supports hygiene requirements
- Reduces trip hazards by keeping hoses organised and contained
- Extends hose life through proper storage and handling
- User-friendly design for easy operation and transport
- Suitable for food and pharmaceutical industries

The Nita Hosereel Trolley is a practical and reliable solution for transporting hoses in environments where they are stored away from production areas. Manufactured from stainless steel, it is designed to withstand the demands of food and pharmaceutical applications while improving hose handling and workplace safety.
