

STRONGHOLD 80

QUICK RELEASE COUPLINGS

KEY FEATURES & BENEFITS

- Integral safety shut-off valve increases safety in the event of accidental release
- Multiple thread sizes available to suit a wide range of system requirements
- Robust, high-quality components for long service life
- Stainless steel construction provides excellent durability and corrosion resistance
- Easy-to-use quick release design

The Stronghold 80 range of quick release couplings is designed for medium to high pressure hose systems, providing safe and reliable connections. An integral safety shut-off valve automatically stops water flow if the hose is accidentally disconnected, helping to improve operational safety.

TECHNICAL DETAILS

Construction	Stainless Steel Plug Construction
Nozzle Material	Hardened Stainless Steel
Maximum System Pressure	520 Bar
Coupling Type	ISO B Quick Release
