

SPEARHEAD VARIO NOZZLE

ADJUSTABLE ANGLE WATER-SAVING NOZZLE

SPEARHEAD

KEY FEATURES & BENEFITS

- Saves Water - Use water more accurately, greatly reducing usage.
- Saves Labour - Reduce downtime & clean faster: Removes the need to change nozzles during shifts.
- Reduce Foreign Body Risks - Fewer nozzles needed, reducing the risk of loose nozzles falling into process machinery from pockets or hands.
- Heavy Duty - The Spearhead Vario Nozzle is extremely heavy duty compared to equivalent adjustable angle nozzles due to its 100% stainless steel construction.

The Spearhead Vario Nozzle is an adjustable-angle nozzle designed for medium-pressure cleaning applications. Featuring a spray pattern adjustable from 0° to 80°, it provides greater control and flexibility during washdown operations.

TECHNICAL DETAILS

Spray Angle	0° - 80° Fan
Inlet Connection	4ST QR Plug
Maximum Pressure	40 bar
Flow Rate	22 L/min @ 20 bar
