

STRONGHOLD 300 WASH GUN

WATER SAVING BY 20%

Compared to other low-pressure traditional wash guns.

The Stronghold® 300 Wash Gun is a compact, lightweight solution for low and medium pressure washdown systems.

Designed for long service life in demanding food production environments, it is available in blue and red to support factory colour-coding schemes. Suitable for temperatures up to 93°C, the Stronghold 300 delivers reliable cleaning performance while helping to reduce water consumption.

KEY FEATURES & BENEFITS

- All wetted parts constructed from stainless steel
- Insulated handle stays cool during hot water use
- Choice of standard-flow or high-flow operation
- Fully adjustable spray pattern for effective cleaning
- Low-force trigger reduces operator fatigue
- Impact-resistant construction for demanding environments

TECHNICAL DETAILS

Pressure Range	1-50 bar
Application	Suitable for low and medium pressure systems
Maximum Temperature	93°C
Weight	0.68 kg
