

STRONGHOLD 450 WASH GUN

THE GUN FOR FOAMING SYSTEMS

The Stronghold 450 Wash Gun is designed specifically for foaming applications and features a pull-release coupling to help prevent accidental nozzle release.

Built for demanding washdown environments, it delivers reliable performance while maintaining ease of operation.

KEY FEATURES & BENEFITS

- Easy-pull trigger helps reduce operator strain and RSI risk
- Delivers consistent foam application for improved cleaning efficiency
- Soft-close mechanism helps protect pumps, pipework and system components
- Durable construction helps reduce replacement costs over time
- Available with quick-release or fixed outlet configurations

TECHNICAL DETAILS

Inlet Connection	½" Female BSP
Outlet Connection	½" Quick Release Outlet
Maximum Pressure	60 bar
Maximum Temperature	100°C
Weight	0.69 kg
