

TECHNICAL DATA SHEET

GENERAL DESCRIPTION

FLOCIP™ CHLOR is a concentrated and fast acting liquid chlorinated caustic designed for recirculation and CIP applications in the Food, Dairy and Brewing/Beverage industries.

The blend of cleaning ingredients and sequestering agents in **FLOCIP™ CHLOR** ensures quick penetration and rapid removal of heavy soils and is suitable for use in hard water areas.

Do not use on soft metals.

TYPICAL PROPERTIES

Clear yellow green liquid

Specific gravity @20°C - 1.20 typical

APPLICATION

Use concentrations will vary according to the degree and nature of the soiling, as well as the hardness of the water, but are typically in the region of 0.5 - 4.0% v/v.

Consult a Foodclean technical representative for specific use applications and recommended dilutions.

STORAGE

Do not allow to freeze (store above 0°C) and away from heat sources and sunlight.

Store in original shipping container away from acidic products.

PACKAGING

25 litre drum

1000 litre IBC

Consult a Foodclean technician for specific applications.
