

TECHNISAN 110L AIR SANITISER SPRAYER

TECHNISAN | 110

Extreme strength & durability

High chemical resistance

Safe & Portable non-pressurised tanks

The Technisan is designed for practical, reliable application of sanitiser chemicals within the food and pharmaceutical industries.

Sanitise your chosen area by connecting to compressed air and opening the ball valve handle.

Take your sanitiser further with the 20m hose option and use a larger tank to minimise 'fill ups'.

KEY FEATURES & BENEFITS

- Tough, non-pressurised tank
- Compact and manoeuvrable for hard-to-reach areas
- Portable and lightweight with carry handles
- Available in blue, red or white for colour coding
- Tough and stable design
- Consistent and wide coverage spray

TECHNICAL DETAILS

Weight	27 kg (empty)
Tank Capacity	110 L
Material	Stainless Steel / PE
Liquid Temperature Range	4.4°C (40°F) to 48.9°C (120°F)

Product	Blue	Red	White
Technisan 110 - 10m Hose	9622	9624	9620
Technisan 110 - 20m Hose	9623	9625	9621
