

TRIPLE CLICK NOZZLE

0160 | 0159

0160

0159

The Triple Click Nozzle is a versatile multi-function nozzle designed for food industry cleaning applications. By simply rotating the nozzle head, users can quickly switch between different spray functions, providing efficient cleaning, rinsing and sanitising performance from a single accessory.

KEY FEATURES & BENEFITS

- Rotating head enables fast selection between multiple spray functions
- Multi-purpose design reduces the need to change nozzles during cleaning
- Suitable for food industry hygiene applications
- High temperature and pressure rating for demanding washdown environments
- Available in two configuration options to suit different cleaning requirements

TECHNICAL DETAILS

Inlet Connection	1/2" M BSP	1/2" M BSP
Rated Pressure	150 Bar	150 Bar
Rated Temperature	150°C	150°C
Configuration	Triple click nozzle	Triple click nozzle with 2 holes and foam nozzle

Product	Code
Triple Click Nozzle	0160
Triple Click Nozzle with 2 Holes and Foam Nozzle	0159

Product	Nozzle Configuration
0160	50°, 15°/30°, 25°/50°
0159	50°/150°, 1/4" F NPT, 1/4" F NPT, Foam Nozzle
