

TECHNICAL DATA SHEET

GENERAL DESCRIPTION

FLOCIP C™ is a powerful and fast acting liquid caustic designed for recirculation and CIP applications in the Food, Dairy and Beverage industries.

The blend of caustic and sequestering agents in **FLOCIP C™** ensures quick penetration and rapid removal of heavy soils and is most suitable for hard water.

Do not use on soft metals

TYPICAL PROPERTIES

Clear pale yellow liquid

Specific gravity @20°C - 1.27 typical

APPLICATION

Use concentrations will vary according to the degree and nature of the soiling, as well as the hardness of the water, but are typically in the region of 1.0 - 4.0% v/v.

Consult a Foodclean technical representative for specific use applications.

STORAGE

Do not allow to freeze and store away from heat.

Store in original shipping container away from chlorinated products.

PACKAGING

25 litre drum

1000 litre IBC

Consult a Foodclean technician for specific applications.

Do not use on soft metals.

FLOCIP™ C

FEATURES

- Low foaming
- Fast acting
- Rapid cleaning
- Good detergency

Foodclean has an ongoing policy of product development. Any changes which significantly alter the information contained on this sheet will be the best of our knowledge, true and accurate, but since the conditions of use are beyond our control, no warranty is given or to be implied in respect of such information or in respect of any information or suggestion which may be made. Customers should consult their Foodclean account manager about the product's suitability for a specific application.
