

STRONGHOLD 120

RUBBER ENCASED ON/OFF VALVE

KEY FEATURES & BENEFITS

- Lightweight design for improved operator comfort
- Stainless steel internal components for durability and corrosion resistance
- Food-safe rubber outer casing for enhanced protection and grip
- Rubber-protected coupling helps minimise wear and impact damage
- Designed for demanding medium pressure washdown applications

The Stronghold 120 Rubber Encased On/Off Valve is a heavy-duty shut-off valve designed for medium pressure washdown systems. Featuring a food-safe rubber outer casing and stainless steel internal components, it provides reliable performance and durability in demanding food processing environments.

TECHNICAL DETAILS

Product	Code
Stronghold 120 On/Off Valve - Quick Release	5113
Stronghold 120 On/Off Valve - Fixed	5111
Stronghold 120 On/Off Valve - Quick Release	6113
Stronghold 120 On/Off Valve - Fixed	6111

Inlet Connection	1/2" BSP
Maximum Pressure	60 Bar / 870 PSI
Maximum Water Temperature	90°C
Weight	800g including Quick Release Coupling
Cover Approval	FDA Approved
